

Now with automated fan run alerts

Do you know exactly when to run your fans?

Live weather plus crop-specific EMC show you when to run your fans—and when to stop.

 **Free for everyone through December 31, 2026**
Full access. No credit card. No payment information. No trial countdown.

HOW ALERTS WORK

Alerts right to your inbox and phone

Fan Buddy checks weather, calculates crop EMC, and alerts you when the recommendation changes.

● Run Fans

Conditions are ideal.

● Marginal

Progress is slower.

● Aggressive Risk

Risk of overshooting.

● Stop Fans

Air works against you.

Everything you need to manage aeration

Automated Fan Alerts

Email and SMS alerts when conditions change for your active job.

● EMC Calculator

Free for life

Clear run or stop guidance based on live weather and grain moisture.

↗ Fan Runtime Estimator

Free for life

Estimate the fan hours and days needed to reach your target.

📅 5-Day EMC Forecast

Free for life

See upcoming aeration windows before the weather changes.

COVERAGE · 14 supported crops
